SUMMARY

I am a Constructing Architect specializing in Technical Drawing, Sustainable Construction and Innovation field. I am qualified to create a link between Architecture and Engineering departments. As well as, solve various problems in building process and development. I have been an active member of various volunteering organizations such as mentor program and student tutor in VIA University College, which helped me to establish myself into intercultural environment. I am highly interested into energy design and sustainable construction development area. I have a great passion in creating new solutions and believe the best way to achieve this is through great teamwork and collaboration. My ability to communicate and network makes me an asset to any organization.

Building services
Land surveying
Autodesk Revit courses
Technical Drawing
3D design
Building innovations
Energy management

WORK EXPERIENCE

RUM arkitektur A/S (Horsens, Denmark) – full time (internship)

Constructing architect trainee

February 2017 – June

2017

I was involved in various projects from renovations and restorations to a new building development. During internship most of my projects was done in Revit, AutoCAD or SketchUp. Moreover, I have done site inspections for various building components, building measurements, and recreated existing building plans from the old drafts. My working environment was surrounded only by Danish colleagues who helped me to communicate and establish myself in the new environment. I had always participated during the meetings with engineers, architects, and clients where I had a chance to give my initial thoughts about the project and what solutions could be done to solve various tasks.

Reitan Distribution A/S (Horsens, Denmark) – part time

Warehouse operator

November 2015 – December

2017

Worked as a student worker approximately 15 hours a week to support myself and my free-time activities. Involved in warehouse management system control and daily packing operations of goods for Rema 1000 and other partner shops. Learned how to penetrate in Danish work environment and gained an ability to work under-pressure. Worked in multi-cultural environment and developed as a person.

AB Ukmerges Gelzbetonis (Ukmerge, Lithuania) – full time (summer job)

Reinforced concrete worker

June 2012 – August

2012

I was involved in various reinforced concrete element production. I had to make sure that there was enough reinforcement, to make sure to use the right kind of concrete for a different element also operated some machines. My colleagues were Lithuanian and Russians, so I had to be bilingual in order to communicate in factory where the communication and safety was the main concern.

SKILLS

Technical skills:

Advanced Revit skills
AutoCAD
MS Office
SketchUp
Photoshop PS6
Solibri model checker
